

Segura 1

Coughtrie

Custodial

NOMS 3 approved patented anti-ligature design (Patent No. 11797486-2423). Praised for its innovation, the Segura anti-ligature custodial range has been designed and constructed for ease of installation and maintenance. With cable channels running behind the fitting, the design ensures that all cabling is completely enclosed.

Applications

- Secure cells
- Secure hospital accommodation

Features

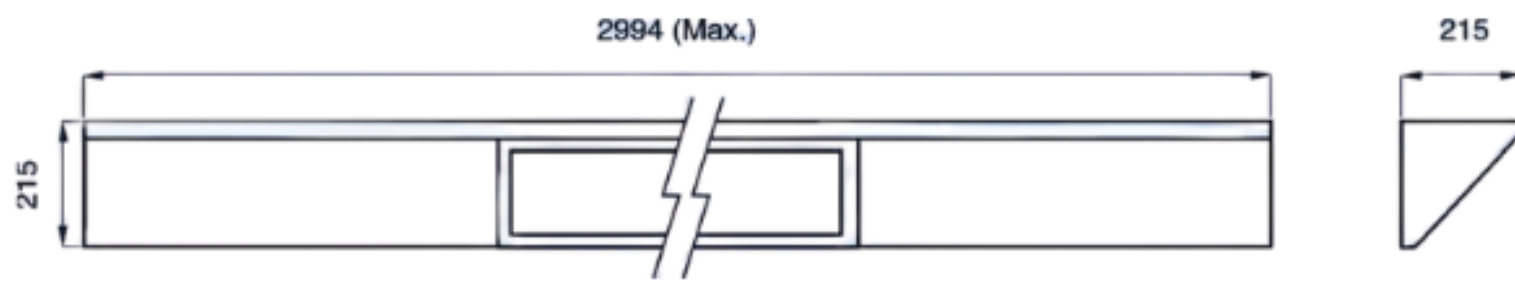

- 2mm reinforced Zintec Body, pretreated and powder coated
- Three 21x30mm cable channels running behind the fitting suit cable entry at either end
- Twin UV stabilised polycarbonate diffusers totaling 12.5mm thick ensure maximum strength
- Silicon gasket used throughout to seal all panels and o-ring washers on each external screw
- Pin Torx security screws, as specified by the Ministry of Justice used for all fixings
- IP65
- IK10++

Options

- RAL 9010 as standard
- Screws as specified Pin Torx, other to order
- Self-test Module POA
- 3-hour Non-Maintained emergency versions POA
- Dusk to Dawn POA

CE BS.EN60598-2-1 IP65

Dimensions (mm)

Lamp Types

30W LED	SGA-30LED
40W LED	SGA-40LED

Other LED options available on request
